

2.d. Percentage of Collaborative Publications and Patents (CP) - 15 Marks

Assessment Metric for Collaborative Publication and Patents:

$$\text{CP} = 15 \times (\text{Fraction of publications and projects jointly with outside collaborators} + \text{Fraction of patents jointly with outside collaborators})$$

In case this number turns out to be more than 20, the score will be restricted to this value.

Data Collection:

Mainly from Databases like Scopus, Web of Science and Google Scholar. ArchNet, Ivory Index, RIBA and AIA Could be aided by information from the institute.
