National Institutional Ranking Framework
Ministry of Human Resource Development
Govt. of India

NIRF has announced **India Rankings 2017**, the second edition of this annual exercise and we have received an overwhelming response.

As part of the ranking exercise it is important to solicit an understanding of the public perception of various institutions. All interested stakeholders are invited to provide their perception from 1st February to 15th February 2017 by 5.00 PM on www.nirfindia.org and clicking on the “Perception” tab.

The input provided by the stakeholders would be very valuable. All personal information will be treated as confidential, and responses will be published only in aggregated form. The data will also be used for further research related to NIRF.
